It then showed how to turn those ideas into money. The second book, Turbo Success: How to Reprogram the Human Biocomputer, was published in 1993. This volume delved much more deeply into how the mind works and again taught readers how to understand the workings of their brains and to come up with invaluable Eureka!

Gillian Nicholson - Kleenezy

I can state categorically that Ron Holland's book Talk & Grow Rich and his personal mentoring helped me tremendously. Ron held my hand until I got the first million in the bank and I am now a multi-millionaire with international homes around the world. Reading Ron's new book The Eureka! Enigma has inspired me to even greater heights! This incredible book needs to be in every home, school and university in the world!

Andy Hunt: ClearSky Properties

I was drawn to Talk & Grow Rich by Ron G Holland. Then I read the front cover, 'How to Create Wealth Without Capital', and inside the book dwelt on 'SSS': Silence, Stillness and Solitude. This guy is a genius! He is better than he realises. His dynamic psychology section is brilliant. I swam, bathed and drank to excess in that chapter. Without question of a doubt this book helped me become a millionaire. Ron's new book, The Eureka! Enigma is leaps and bounds beyond the incredible Talk & Grow Rich. I am spellbound! Needless to say I am Ron's greatest fan and he is now my personal mentor.
